

The Centre International de Formation Européenne offers a Summer University Programme for students, minimum two years of post-secondary education, and young professionals, in various countries, and mainly in Central and Eastern Europe.

A wide variety of experts, including academics, social scientists and practitioners from all around the world will teach in this programme.

Please find enclosed a poster with all the sessions organised during the whole summer. We would be happy if you could forward it to the relevant departments or post where students have a chance to see it. Of course, we will be pleased to welcome the students that you have selected as the best ones ! The interested students have to contact me to get the registration form.

For further information, please have a look at our website :

**<http://www.cife.eu> Index «Summer University Programme»**

Because of the limitation of participants, every application is considered as early as received. When the quota is reached, applicants will be placed on a waiting list and could possibly be contacted later.

We would be extremely grateful if you could help us to recruit good students and if this information could be brought also to the attention of friends of you, preferably graduate students. The earlier the registration form is sent, the best financial conditions they may have !
